

## Finance your Nesting Technology Directly with Optimization®

There is no longer any reason to delay your cost saving using Optimization®'s technology. Because Optimization® is strong financially and has the most advanced technology; we offer direct financing of all of our products.

This is not a third party lease finance arrangement. Optimization® provides the financing from its own capital resources. The best news is our product is the collateral. You do not have to tie up valuable assets to secure the financing and you do not have to sign any guarantees.

Small companies with one machine no longer have to envy the large companies that are User's of the world's best nesting technology. Large companies that want to have the expense of a lease instead of a capital outlay for tax purposes also benefit from our lease program.

Call today and we will provide a custom quotation with built in financing.
